## ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR (during the vote).  
There is 1 minute remaining.

□ 1837

So the amendment was rejected.  
The result of the vote was announced  
as above recorded.

Stated for:

Mr. FILER. Mr. Chair, on rollcall 106, I was away from the Capitol due to prior commitments to my constituents. Had I been present, I would have voted "aye."

Mr. HENSARLING. Mr. Chairman, I move that the Committee do now rise.  
The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. FLEISCHMANN) having assumed the chair, Mr. BISHOP of Utah, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 3606) to increase American job creation and economic growth by improving access to the public capital markets for emerging growth companies, had come to no resolution thereon.

## HOUR OF MEETING ON TOMORROW

Mr. HENSARLING. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 10 a.m. tomorrow.

ARKANSAS CHILDREN'S HOSPITAL:  
100 YEARS OF CARE AND SERVICE  
TO THE COMMUNITY

(Mr. GRIFFIN of Arkansas asked and was given permission to address the House for 1 minute.)

Mr. GRIFFIN of Arkansas. Mr. Speaker, I rise today in honor of Arkansas Children's Hospital, which is celebrating 100 years of service to Arkansas' children and families. Since it was founded in 1912 as an orphanage, Children's has grown to become one of the largest pediatric hospitals in the Nation. Children's is the only Level 1 pediatric trauma center in Arkansas, and they provide care to all 75 counties. For the past 3 years, it has been included in Fortune's 100 Best Companies to Work For.

Medical breakthroughs, intense treatments, unique surgical procedures, and forward thinking have led to Children's international reputation. This is due to Children's more than 4,000 employees.

I congratulate Arkansas Children's Hospital on their contribution to the health and well-being of our children

and families, and to Arkansas' economy.

## GAS PRICES

(Mr. MURPHY of Connecticut asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of Connecticut. Mr. Speaker, as we do here in Congress every time that gas prices rise, Members from both sides of the aisle are quick to blame each other. The reasons we find ourselves with high gas prices today aren't simple, and we should be wary of anyone who's offering an overly simple, one-stop solution to this crisis. We can take some steps to try to calm these prices today, but the real fixes are going to take years—and a willingness to lower the partisan rhetoric around this issue is going to be part of the equation.

One thing we can do now in the short term is to make sure that our commodities markets are functioning rationally. That means empowering Federal regulators to ensure that oil prices can't be driven simply by financial speculation. We need the Commodities Futures Trading Commission to enforce strong trading limits to police speculation in energy markets, and we here in Congress have to give them the resources they need to do that. The problem we face today isn't one of supply and demand. Demand is at its lowest in 17 years. Supply is at its highest in 3 years. This is a question of making sure that speculation isn't running the price up too fast and too quickly. It's our job to put some speed bumps along the road.

## GAS PRICES

(Mr. CRAWFORD asked and was given permission to address the House for 1 minute.)

Mr. CRAWFORD. Mr. Speaker, as of today, the price for a gallon of regular gasoline in my hometown of Jonesboro, Arkansas, is \$3.55. Just a year ago, that same gallon of regular gasoline would have cost \$2.96. We've all heard the news reports that gas could hit a record of \$5 a gallon this summer. The rising cost of gas not only affects my constituents at the pump, it will also drive up the cost of good and services.

Congress can lower gas prices. We can require approval of the Keystone XL pipeline within 30 days. President Obama's rejection of the Keystone project will hit working families at the pump this summer. The American West is primed for oil shale development to provide oil and natural gas. The U.S. Geological Survey estimates we have the equivalent of more than 1.5 trillion barrels of oil in Colorado, Utah, and Wyoming. That's enough to provide the United States with energy for 200 years.

The Obama administration recently announced plans to restrict offshore drilling. After the BP oil spill, strict regulations were put in place to allow
